~ *Lichtesglanz*, by Daniel Moreau ~

When out of world-wide spaces  
The sun speaks to the human mind,  
And gladness from the depths of soul  
Becomes, in seeing, one with light,  
Then rising from the sheath of self,  
Thoughts soar to distances of space  
And dimly bind  
The human being to the spirit's life.

– Calendar of the Soul, Verse 1

Working with imagery and tone, in an informal workshop setting, we will venture together into the language of poetry, with inspiration from the verse above. Bring a pen and paper, and your imagination! All are welcome. We will be guided by [Tina Daub](#), a working poet who has taught at several schools in the DC area and has been a long-time student of Anthroposophy.
