The Branch does not discriminate by race, gender, religion, ethnic or national origin
in any of its programs or administrative policies.

* **School of Spiritual Science Fund.** This Branch Fund provides financial assistance for members of the First Class of the School of Spiritual Science who attend meetings or conferences held by the School. Such gatherings support the work of the School to further the intentions of Rudolf Steiner. Meetings of Class Holders (those who have taken on responsibility for leading the local First Class work) also help to deepen the work, connecting local endeavors to the lifestream of the School. The Branch supports the work of the School and of the First Class, and invites donations to the School of Spiritual Science Fund to help defray the expenses of those members who attend such events.
